## EXAMINER'S AMENDMENT

### *Response to Request for Rejoinder of Non-Elected Claims*

1. The species election requirement, as set forth in the Office action mailed on 10/6/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4, 44, directed to species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. Applicant argues that the nonelected invention (claims 11-20, 39-41) is a species of an generic allowable claim. However, the nonelected invention of claims 11-20,39-41 does not contain all the limitations of the allowed invention (e.g., a monolithic damper layer).

Art Unit: 1773

3. This application is in condition for allowance except for the presence of claims 11-20, 39-41 directed to an invention non-elected without traverse. Accordingly, claims 11-20, 39-40 been cancelled.

***Examiner's Amendment***

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

5. The application has been amended as follows:

Claims 11-20, 39-40 have been cancelled.

6. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a damper component comprising one or more monolithic damper layers comprising a viscoelastomer and a continuous polyester constraining layer completely encasing the damper component(s) so that all surfaces and edges are covered by said continuous constraining layer. LANDIN ET AL '931 and SPERLING ET AL '404 and KIM '963 fail to disclose constrained layer damper wherein a polyester constraining layer completely encases and covers all surfaces and edges of the damper layer.

The double patenting rejection in the previous Office Action has been withdrawn in view of the Terminal Disclaimer filed 6/9/2006.

Art Unit: 1773

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
